## India

### Region Bundelkhand, state of Madhya Pradesh

(The Goals, Euro and Info Icons can be clicked for further information)

Improves the living conditions  
of 27.500 people

Just € 6,00 enable a person  
access to clean drinking water

In 2016, Viva con Agua  
collects € 57.500 for India

The project duration is  
01.09.2014 bis 31.12.2016

The four main goals of the project are:

(Link)

- 1) Reduction of water related diseases
- 2) Informing the households on their rights and possibilities towards the government. Especially regarding water
- 3) Improvement of implementations by state run programs / systems
- 4) Further development of WASH knowledge at the German Agro Action and other partner organizations

(Link)

The project increases the water availability and access to dignified sanitation facilities. Thus, the economic and health conditions of the people improve as well. The legal condition of the people shall be strengthened.
